Overview

This document gives you information about the Remedi Medical Aid Scheme HIVCare Programme. It explains your cover for HIV-or AIDS- related hospital admissions and HIV medicine.

We also give you information on the doctor consultations, laboratory tests and x-rays we cover.

Some of the terms we use in this document

There are a number of terms we refer to in the document that you may not be familiar with. We give you the meaning of these terms:

Terminology	Description
Chronic Drug Amount	A maximum monthly amount we pay up to for a medicine class subject to the benefits offered by your chosen benefit option. This applies to medicine that is not listed on the formulary or medicine list. This does not apply to Remedi Standard Option.
Reference Price	A monthly amount we pay up to for a medicine class subject to the benefits offered by your chosen benefit option. This applies to medicine that is not listed on the formulary or medicine list. This does not apply to Remedi Standard Option.
Day-to-day benefits	These are the funds available in the Personal Medical Savings Account or Insured Out-of-Hospital Benefit, depending on your chosen benefit option's available benefits.
Remedi Rate	This is the rate that Remedi Medical Aid Scheme sets for paying claims from healthcare professionals.
Shortfall	Remedi pays service providers at a set rate, known as the Remedi Rate. If the service providers charge higher fees than this rate, you will have to pay the difference between the Remedi Rate and what the providers charged, from your pocket.
Payment arrangements	We have payment arrangements in place with specific specialists to pay them in full at a negotiated rate.

The HIVCare Programme, at a glance

You have access to clinically sound and cost-effective treatment

We base the Remedi Medical Aid Scheme HIVCare protocols on the Southern African HIV Clinicians' Society and South African Department of Health guidelines. Approval of HIV- related services is subject to Prescribed Minimum Benefit guidelines and your benefits.

We deal with each case with complete confidentiality

HIV or AIDS is a sensitive matter, whether one has the condition or not. Our HIV healthcare team respects your right to privacy and will always deal with any HIV- and AIDS-related query or case with complete confidentiality.

No overall limit for hospitalisation for members who register on the HIVCare Programme

For members who register on the HIVCare Programme, on all benefit options, there is no limit to the hospital cover. Subject to pre-authorisation and Remedi Medical Aid Scheme rules.

We cover a specified number of consultations and HIV-specific blood tests for your condition

For members who are registered on the HIVCare Programme, we pay for four (4) GP consultations and one specialist consultation for the management of HIV.

We also pay HIV-specific blood tests for members who are registered on the HIVCare Programme. These tests are a measure of the extent of the HI virus and are instrumental in managing the patient's response to treatment. The specific tests are listed in the *Benefits available for your option*.

We cover antiretroviral medicine from our HIV medicine list up to the Remedi Rate

Members who test positive for HIV have cover for antiretroviral medicine that are on our HIV medicine list (formulary). This includes treatment for prevention of mother-to-child transmission, treatment of sexually transmitted infections and HIV-related (or AIDS-defining) infections. We will fund for supportive medicine whose conditions meet our requirements for cover (clinical entry criteria). Our case managers will coordinate HIV medicine applications and monitor the member's use of antiretroviral treatment to ensure the treatment is effective.

For preventive treatment in case of sexual assault, mother-to-child transmission, trauma or workman's compensation, any HIV waiting periods do not apply to preventive medicine. Cover is subject to national treatment guidelines and benefit confirmation. Members do not need to register on the HIVCare Programme for this preventive treatment.

Getting the most out of your benefits

Register on the HIVCare Programme to access comprehensive HIV benefits

You need to register on the Remedi Medical Aid Scheme HIVCare Programme to access the benefits available on the HIVCare Programme. Call us on 0860 116 116, fax 011 539 3151 or email HIV@yourremedi.co.za to register.

The HIVCare team will only speak to the HIV-patient or the treating doctor, about any HIV-related query.

Use approved medicine on our medicine list

Remedi Medical Aid Scheme does not cover experimental, unproven or unregistered treatments or practices.

You have full cover if your healthcare provider charges the Remedi Rate. For clinically appropriate medicine that is not on the list, we will pay up to a set monthly amount (Chronic Drug Amount). You will be responsible to pay any shortfall from your pocket for medicine not on the list or if the pharmacy charges more than the Remedi Rate.

Get your medicine from a healthcare provider who is part of our network

Pharmacies in the HIV pharmacy network is the Scheme's Designated Service Provider (DSP) for dispensing HIV antiretroviral medicine. Remedi Medical Aid Scheme members who do not use HIV pharmacy networks for their HIV antiretroviral medicine will have to pay a 20% co-payment on their monthly HIV medicine.

Use a healthcare provider who participates in our payment arrangements

If the GP, specialist or other healthcare provider participates in our payment arrangements, we will pay the account up to the agreed rate. If you don't use a healthcare provider who participates in our payment arrangements, you will be responsible for any shortfall between what the provider charges and what Remedi Medical Aid Scheme pays.

Tell us where you'll be having your treatment and who your treating doctor is, and we'll confirm if the healthcare provider participates in one of our payment arrangements. If you choose to have your treatment at a provider who is in one of our payment arrangements, there will be no shortfall in payment.

Remember that your option's benefits still apply in this case.

Remedi Medical Aid Scheme's MaPS (Medical and Provider Search) on www.yourremedi.co.za helps you find medical services and providers without a co-payment. Go to www.yourremedi.co.za for more details.

Take your HIV medicine as prescribed and send test results when we ask for them

We will only fund your HIV treatment if Remedi Medical Aid Scheme has approved it and you remain compliant with your treatment plan. Once you've registered on the HIVCare Programme, you'll need to send us follow-up tests, when we ask for them, for us to assist you in the ongoing management of your condition.

Prescribed Minimum Benefit cover

The Prescribed Minimum Benefits are guided by a set list of medical conditions as defined in the Medical Schemes Act of 1998. These conditions include 270 defined diagnoses and their associated treatments, as well as 27 chronic conditions.

All medical schemes in South Africa have to include the Prescribed Minimum Benefits in the benefit options they offer to their members. There are, however, certain requirements that a member must meet before he or she can benefit from the Prescribed Minimum Benefits.

1. Your condition must be part of the list of defined conditions for Prescribed Minimum Benefits. You may need to send us the results of your medical tests and investigations that confirm the diagnosis for your medical condition.
2. The treatment you need must match the treatments included as part of the defined benefits for your medical condition.
3. You must use a doctor, specialist or other healthcare provider with whom Remedi Medical Aid Scheme has negotiated a specific payment arrangement. There are some cases where this is not necessary, for example a life-threatening emergency.

HIV infection is classified as a Prescribed Minimum Benefit condition for members who qualify for cover. However, only certain treatment protocols are available for funding from this benefit.

More information on our approach to Prescribed Minimum Benefits is available at www.yourremedi.co.za

Your doctor can appeal for additional cover

We cover certain basic out-of-hospital treatments related to HIV infection as a Prescribed Minimum Benefit. You can ask for additional cover if your condition requires this, through an appeals process. Once we have approved the additional cover, we will pay the claims for these treatments in full, if your doctor participates in one of our payment arrangements. You may be responsible to pay part of the claim if your doctor does not participate in one of our payment arrangements.

We pay all other out-of-hospital treatments from the available funds in your day-to-day benefits, if available on your benefit option. If your benefit option does not have day-to-day benefits or you have run out of money, you will be responsible to pay these from your pocket.

HIV drug resistance test

You do not automatically qualify to have this test covered from the Scheme's risk benefits, authorisation for the test is a prerequisite. Authorisation applies for requests for tests done in-hospital and out-of-hospital. The authorisation process is used to manage risk to ensure that you receive best-practice HIV care, based on clinical evidence, to ensure optimal quality of care and health outcomes. It is important that the authorisation process be followed for every request.

If you haven't registered on the HIVCare Programme, you must pay these costs from your pocket.

Complaints process

You may lodge a complaint or query with Remedi Medical Aid Scheme directly by following the instructions on the website at www.yourremedi.co.za.
