### Treatment baskets for the Chronic Disease List (CDL) conditions

The Prescribed Minimum Benefit (PMB) Chronic Disease List (CDL) is a list of conditions which all medical schemes need to cover on all the plans they offer to their members. This cover includes funding for the diagnosis, treatment and ongoing care for the listed conditions.

Read further to understand what procedures, investigations and consultations are covered for both the diagnosis and ongoing management for each condition.

### We will only pay Prescribed Minimum Benefit (PMB) claims if your condition has been approved on the Chronic Illness Benefit

Only claims for procedures and consultations listed in the Prescribed Minimum Benefit (PMB) treatment baskets will be paid from the Chronic Illness Benefit. These are pro-rated based on the date of approval of your chronic condition. Where you have cover for the same procedure or test in more than one basket, we limit payment to the number of procedures or tests in the basket that has the highest number.

## How we pay for tests to diagnose your condition

If you have been recently diagnosed with and approved for cover for a Chronic Disease List condition (CDL), we will pay for the tests and procedures in the diagnostic basket in full. We will also pay in full for the consultation with the healthcare provider who made the diagnosis. We will only pay for these tests, procedures and consultation provided that you were an active and valid member of the Scheme at the time of the diagnosis and the relevant ICD-10 diagnosis codes are on the claim. Please ask your doctor to provide the date of diagnosis of your condition(s) on the CIB application form to assist us to pay your claims from the correct benefit.

## We will pay tests and procedures for your condition according to the treatment baskets

We pay claims from the treatment baskets for the ongoing management of your condition from healthcare providers such as radiologists, dietitians and podiatrists in full.

We pay claims from pathologists and medical technologist who we have a payment agreement with in full up to the agreed rate. We will pay up to a maximum of the Remedi Rate if you use a pathologist or medical technologist who we do not have a payment arrangement with. You will have to pay any difference between what is charged and what we pay.

We pay for claims from Diabetes Educators up to the agreed rate subject to the limit being available.

## How we pay GP consultations related to your condition

We pay consultations listed in the Prescribed Minimum Benefit (PMB) treatment baskets related to your condition from the Chronic Illness Benefit.

### Comprehensive and Classic options

We pay for four (4) consultations that are related to your approved condition a year at a GP who is a designated service provider up to the agreed rate.

We pay up to a maximum of 100% of the Remedi Rate for consultations with a GP who is not a designated service provider. You must pay any difference between what is charged and what we pay.

**Standard option**

We pay for four (4) consultations that are related to your approved condition a year with your chosen primary or secondary GP in the Network up to the agreed rate.

If you use any other GP, we will pay up to a maximum of 80% of the Remedi Rate. You must pay any difference between what is charged and what we pay.

**How we pay specialist consultations related to your condition**

We pay for consultations listed in the Prescribed Minimum Benefit (PMB) treatment baskets related to your condition from the Chronic Illness Benefit.

**Comprehensive and Classic options**

Depending on your condition, we pay for a specific number of consultations with a specialist, as listed in the treatment baskets. We will pay the consultation at a specialist who is a designated service provider up to the agreed rate.

We pay up to a maximum of 100% of the Remedi Rate for consultations with a specialist who is not a designated service provider. You must pay any difference between what is charged and what we pay.

**Standard option**

Depending on your condition, we pay for a specific number of consultations with a specialist who we have a payment arrangement with and who agrees to charge the Specialist Network Rate up to the agreed rate.

We pay up to a maximum of 80% of the Remedi Rate for consultations with any other specialist. You must pay any difference between what is charged and what we pay.

## **Please make sure your claims have the appropriate ICD-10 diagnosis code**

To make sure that we pay your claims from the correct benefit, we need the claims from your healthcare providers to be submitted with the relevant ICD-10 diagnosis codes. Please ask your doctor to include your ICD-10 diagnosis codes on the claims they submit and on the form that they complete, when they refer you to pathologists, medical technologists and radiologists for tests. This will enable pathologists, medical technologists and radiologists to include the relevant ICD-10 diagnosis codes on the claims they submit to ensure that we pay your claims from the correct benefits.

## **We will not pay claims from the Chronic Illness Benefit if these requirements are not met**

We will not pay claims from the Chronic Illness Benefit if:

- the claims are submitted without the relevant ICD-10 diagnosis codes
- you are not yet registered on the Chronic Illness Benefit for a Prescribed Minimum Benefit (PMB) Chronic Disease List (CDL) condition
- you have exceeded the frequency limit on consultations or tests
